

ABSTRACT OF THE DISCLOSURE

Postage is obtained by sending user-requests for postage to a first server system. The first server system then communicates with a postage vendor server to obtain the desired postage. In one embodiment, the postage vendor server system receives payment for postage from each user requesting postage. In another embodiment, the postage vendor server receives payment from the first server system on behalf of the users purchasing postage.

PA 3086683 v2

1. The first part of the report, which is the most important, is the one that deals with the results of the study. This part is divided into two main sections: the first section deals with the results of the study, and the second section deals with the conclusions of the study.
